

## About Komit

Komit is a team of Odoo experts. Komit's history is linked to Odoo since 2009. For more than 8 years, we shaped solutions based on Odoo for many customers, worldwide, in different sectors such as manufacturing, retail, hotel, administration or project management. We have experience in all core modules CRM, Sales, Purchase, Stock, Manufacturing, Accounting, Human Resources and have the ability to design completely custom modules.

## Job Description - Developer intern

### The Job

- Get the same responsibilities as a Junior Developer with extra support and time for research
- Learn about development in Odoo (python)
- Learn about the basics of project management and teamwork
- Write code based on technical specifications and according to coding guidelines
- Work on a scholar/research project in parallel with your main tasks (with prior approval from your tutor)

### Your Skills and Experience

- Study for a bachelor's degree (Computer Science/IT or equivalent major)
- Intermediate written and verbal English
- Strong desire to learn
- Interested by Business Management processes (your role requires to understand how a company operates)
- Knowledge of OOP
- Knowledge of Odoo or python is a plus
